

General advice to PCS students.

Your teacher will establish your Moodle account

You will need to have and remember your email address in order to set-up your Moodle account

Your Moodle account is subject to responsible behaviour online.

"No, you weren't downloaded.
You were born."

Your Account

- Every student USERNAME is name.surname e.g. mary.ryan
- Every student PASSWORD has eight characters and there must be
- one CAPITAL letter, one SMALL letter, One SYMBOL, One Number in it
- Mine is (joking of course) 12345Aa# (you get the idea)

If you give your password to someone else you are engaging in really stupid behaviour and will personally have to accept all responsibility for activity on your account.

Can anyone see my work on Moodle? Yes!

All activities - your teacher

Most activities - your classmates only.

Assignments - your teacher only.

Anyone else? No - unless "stupid" gives them his/her password.

Once logged in...

You will see the classes you are enrolled in on Moodle - start clicking and enjoy
